FIRST[®]
CORPORATION

First Corporation promuove nei settori dell'edilizia, termoidraulica, ferramenta e GDO i prodotti fabbricati dalle aziende First Plast ed Edil Plast con i marchi commerciali: La Ventilazione, Cover-Life, Cupraelite e Pratiko. Gli stabilimenti di produzione sono dotati dei più moderni impianti di estrusione e di stampaggio. First Corporation è presente con i propri prodotti in tutto il mondo e partecipa alle più importanti manifestazioni fieristiche.

Le groupe First Corporation est spécialisé dans la production et distribution de matériaux plastiques pour le bâtiment qui trouvent application dans divers domaines: plomberie, quincaillerie, grande distribution etc. First Plast et Edil Plast sont les sites principaux de production en Italia et proposent une large gamme de produits sous les brands: La Ventilazione, Cover-Life, Cupraelite et Pratiko. Nos établissements sont équipés du plus moderne outil industriel d'extrusion, co-extrusion et injection. First Corporation prend part aux plus importants salons internationaux et ses produits sont exportés dans le monde entier.

First Corporation is a group of companies specialized in production and distribution of plastic materials for building to be employed in several fields: plumbing, hardware, DIV markets etc. First Plast and Edil Plast are our main Italian plants for production of a wide range of products under the brands: La Ventilazione, Cover-Life, Cupraelite, and Pratiko. There we dispose of most modern extrusion, co-extrusion and injection equipment. First Corporation takes part to most important international exhibitions and its products are exported all over the world.

BI•SYSTEM

1974

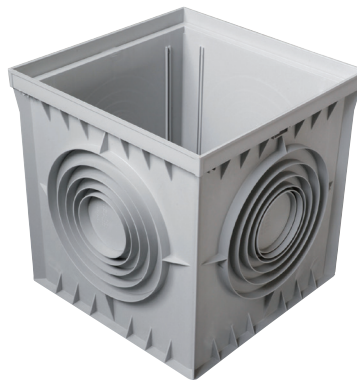

Canali di gronda in PVC
Gouttières en PVC
PVC rain gutters

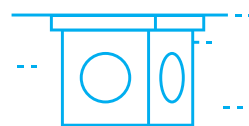

First Plast produce 9 modelli di gronde e 10 diametri di tubi pluviali in PVC in 10 colori. Dal 1995 la First Plast produce sistemi di gronda con effetti ramati e acciaio metallizzati.

First Plast produit 9 modèles de systèmes gouttières en PVC avec 10 diamètres tu tuyaux de descente et une combinaison de 10 couleurs. Depuis 1995 First Plast a commencé la production des gouttières en plastiques aspect métal: Cupraelite cuivre et acier.

First Plast produces 9 models of PVC gutter systems with 10 diameters of PVC downpipes and a combination of 10 colours. Since 1994 First Plast has also started production of PVC gutter systems metal effect: Cupraelite copper and steel.

1984

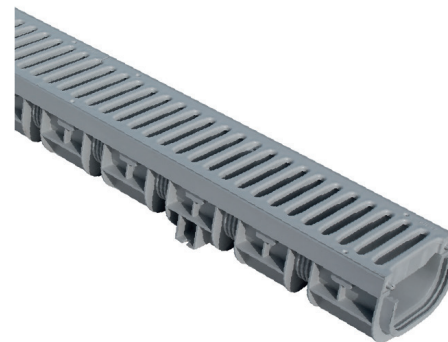

Prodotti del suolo
Produits de sol
Ground accessories

First Plast è la prima azienda italiana a produrre una gamma completa di articoli per il drenaggio del suolo (pozzetti, griglie, coperchi, telai e chiusini sifonati).

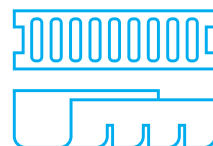

First Plast fut la première société italienne à produire un assortiment complet de produits de sol avec regards, grilles, couvercles, cadres et siphons de cour.

First Plast was the first italian company to produce a complete range of ground products as drain boxes, grilles, covers, frames and gully traps.

PRATIKO

1988

Canali grigliati
Caniveaux à grilles
Drainage channels

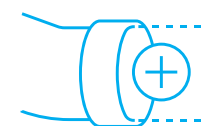

I 17 modelli di canali grigliati modulari First consentono una evacuazione lineare di tutti i liquidi. I canali grigliati First sono tutelati da brevetti internazionali e identificati dal marchio Pratiko.

Avec 17 modèles, nos caniveaux modulaires sont recommandés pour toutes applications en évacuation des eaux pluviales. Ils sont identifiés par le brand Pratiko et sont patentés à niveau international.

With 17 different models, our modular channels are recommended for every application in rainwater drainage. They can be easily recognized by brand Pratiko and are internationally patented.

1988

Raccorderia
Raccords évacuation
Fittings

First Plast produce raccorderia per scarico acque in PVC con diametri dal 32 al 400. I raccordi sono prodotti in conformità delle norme internazionali.

Le raccords en PVC à coller FIRST sont produits selon les normes et standards internationaux. Nous proposons une gamme complète de diamètres du 32 au 400 mm.

FIRST PVC solvent cement fittings are produced according to international standards and norms. We propose a complet assortment with diameters from 32 up to 400 mm.

LA VENTILAZIONE

1986

Griglie di ventilazione
Grilles de ventilation
Ventilation grilles

La Edil Plast produce griglie di aerazione a brand "La Ventilazione" con i passaggi d'aria dichiarati e certificati a norma ISO 5219, sistemi per aerazione canalizzata, prodotti per l'insonorizzazione acustica e per VMC.

Les produits pour la ventilation de Edil Plast sont marqués "La Ventilazione" et induent grilles de ventilation, gaine en PVC, réducteurs acoustiques et VMC. Nos grilles sont testées avec sections de passage certifiées selon la norme ISO 5219.

Edil Plast produces HVAC products under the brand "La Ventilazione", including ventilation grilles, air duct systems, acoustic reducers, electric fans and double flux. Our grilles are tested and air passes certified according to ISO 5219.

COVERlife

1996

Lastre di copertura
Plaques de couverture
Roofing sheets

La Edil Plast produce lastre di copertura per tutti gli edifici civili ed insustriali a brand "Cover-Life".

Le plaques de couverture coextrudées "Cover-Life" sont idéales pour l'installation soit dans le domaine industriel, soit résidentiel.

"Cover-Life" coextruded roofing sheets are ideal for installation both on industrial and civil buildings.
